ALADIN WALL

Montaggio tratta parete / Partition segment installation

ATTENZIONE: Viene illustrata la configurazione A. Per la configurazione B, ripetere gli stessi passaggi su entrambi i lati. /
WARNING: It is shown the Configuration A. For configuration B, repeat the same steps on both sides.

1. Tagliare il profilo base verticale [1] a misura. / 2. Inserire le squadrette [14] nel profilo base verticale e fissarle con i grani.
 1. Cut to ceiling height the base profile [1]. / 2. Insert the brackets [14] into the base profile and fix it with the dowels.

3. Posizionare il profilo a muro in posizione e verificare che sia perfettamente verticale. / 4. Forare il muro e fissare il profilo con il metodo di ancoraggio adeguato al tipo di muro.
 3. Position the profile to the wall and verify that is perfectly vertical. / 4. Drill the wall and fix the profile with the correct fixing method for the wall.

5. Identificare il verso di montaggio corretto del profilo base orizzontale.

5. Identify the correct mounting direction of the horizontal base profile.

6. Inserire il profilo base orizzontale nella squadretta ed allineare i due profili. Stringere tutti i grani della squadretta.

6. Insert the base horizontal profile into the bracket and align the two profiles. Tighten all the dowels in the bracket.

7. Fissare a pavimento il profilo base orizzontale.
7. Fix to the floor the horizontal floor base profile.

8. Ripetere step n° 5-6-7 per fissare il profilo base orizzontale a soffitto [1].
8. Repeat step n° 5-6-7 to fix the upper ceiling horizontal base profile [1].

9. Inserire ed allineare il blocchetto [12] al filo lavorato del profilo (sia superiore che inferiore). Stringere i grani per bloccarlo in posizione.
 9. Insert and align the block [12] into the grooving of the profile (both upper and lower). Tighten the the dowels to block it into position.

10. Tagliare a misura il montante della porta [4]. Attenzione: asportare la stessa quantità di materiale alle due estremità del profilo.
 10. Cut to ceiling height the door upright [4]. Attention: remove the same quantity of material on both ends of the profile.

11. Fissare il montante della porta, inserendo le viti nel blocchetto (superiore e inferiore).
11. Fix the door upright inseting the screws into the block (top and bottom).

12. Tagliare a misura il profilo tratta verticale [2].
12. Cut to ceiling height the vertical profile segment [2].

13. Inserire la ferramenta (regolatori e grani M10) nel profilo tratta verticale.

13. Insert the hardware (regulators and dowels M10) into the vertical segment profile.

14. Inserire il profilo nel montante a muro. Girare di 90° il regolatore con chiave esagonale n° 6 per bloccarlo in posizione.

14. Insert the profile into the wall upright. Turn 90° the regulator with the esagonal key n° 6 to lock it into position.

15. Inserire le viti di sicurezza nei regolatori, completando il kit con rondella e molla. Non stringere a fondo le viti.

15. Insert the security screws into the regulators, complete the kit with washer and spring. Do not tighten to the end the screws.

16. Inserire i grani M10 [11] nel profilo tratta orizzontale inferiore [2].

16. Insert the dowels M10 [11] into the lower horizontal segment profile [2].

17. Posizionare il profilo tratta inferiore nel profilo base fissato a pavimento. Verificare che l'estremità sia aderente al profilo montante porta.
17. Position the lower segment profile into the base profile fixed to the floor. Check that the ends are close to the door jamb profile.

18. Mettere in bolla il profilo orizzontale agendo sui grani M10. Successivamente bloccare il profilo con le viti di sicurezza. **ATTENZIONE:** il profilo deve essere perfettamente orizzontale per garantire un buon montaggio dei pannelli vetrati. È consigliato l'uso della livella laser.

18. Level the horizontal profile with dowels M10. Afterwards lock the profile with the security screws. **ATTENTION:** the profile must be perfectly horizontal to grant a correct installation of the glass panels. It is recommended the use of a laser leveller.

19. Inserire i regolatori nel profilo tratta orizzontale superiore.

19. Insert the regulators into the upper horizontal segment profile.

20. Inserire il profilo tratta superiore nel profilo base a soffitto. Ruotare i regolatori di 90° per bloccare in posizione il profilo. Inserire vite di sicurezza. **ATTENZIONE:** non stringere a fondo le viti. Verificare che l'estremità sia aderente al profilo montante porta.

20. Insert the upper segment profile into the ceiling base profile. Rotate 90° the regulators to lock into position. Insert security screw. **ATTENTION:** do not tighten to the end the screws. Verify that the end is tight-fitting with the door upright.

21. Verificare l'altezza con la dima in dotazione, in corrispondenza di ogni regolatore.

21. Check the height with the template in correspondence of each regulator.

22. Con la dima posizionata in prossimità del regolatore da serrare, tirare verso il basso il profilo superiore fino a che appoggi all'estremità della dima. Stringere la vite del regolatore superiore fino a mandare in completa compressione la molla. Ripetere per tutti i regolatori.
22. With the template positioned close to the regulator to be locked, pull down the upper profile until it sits on the template end. Tighten the regulator screw until the spring is completely compressed. Repeat for all regulators.

Profilo ribassato / Lowered profile Posizione zero / Zero position	Profilo ribassato / Lowered profile Posizione nominale da progetto / Nominal position as per project design	Profilo ribassato / Lowered profile Posizione massima raggiungibile / Maximum position achievable
Profilo base / Base profile Posizione zero / Zero position	Profilo base / Base profile Posizione nominale da progetto / Nominal position as per project design	Profilo base / Base profile Posizione massima raggiungibile / Maximum position achievable

ATTENZIONE: A dima posizionata e profilo pretensionato, verificare la posizione reciproca dei profili (su tutti i lati) con le misure qui riportate.
ATTENTION: At template positioned and profile pre tensioned, verify the position of the profiles (on all the sides) with the dimensions shown here.

23. Ogni 30 cm, inserire clip di plastica [13] in tutti i lati della parete. Fare attenzione al corretto inserimento della clip nella propria sede.
 23. Each 30 cm, insert the plastic clip [13] on each side of the wall. Attention to insert the clip into the correct place.

24. Prima di procedere con l'installazione dei vetri, verificare che il profilo a terra sia perfettamente orizzontale. In caso contrario ripetere la procedura n°18.

24. Before starting installation of the glass panels, verify that the floor profile is perfectly horizontal. Otherwise repeat the procedure n°18.

25. Montaggio dei vetri. Pulire il bordo libero del primo vetro ed incollare biadesivo.

25. Installation of the glass panels. Clean the free edge of the first glass panel and glue the double sided tape on it.

26. Montare il primo vetro (lato esterno) partendo dal lato muro, facendo riferimento alla numerazione riportata sul disegno di progetto. Incastrare il profilo vetro prima nel profilo tratta superiore della parete e poi in quello inferiore.

ATTENZIONE: il profilo tratta superiore della parete è soggetto a movimento verso il basso. La molla presente all'interno dei regolatori manda in leggera tensione la lastra di vetro assicurandone il perfetto incastro.

26. Install the first glass (external side) starting from the wall, following the numbering shown on the project drawing.

Fit the profile glass before into the upper segment profile of the wall and then into the lower one.

ATTENTION: the upper profile tends to move down. The spring inside the regulators make a light tension and the glass slab is secured in perfect fit.

27

27. Proseguire con il montaggio dei vetri sullo stesso lato, seguendo la numerazione riportata sul disegno di progetto.
27. Keep installing the glass on the same side, following the numbering shown on the project drawing.

28. Rimuovere il liner dal biadesivo ed accostare i due vetri con l'aiuto di una ventosa con cricchetto e livellatori.

28. remove the liner from the double-sided tape and put together the two glass panels with the help of a of a suction cup and a leveller.

29. Sul montante porta, solo dal lato vetrato, inserire e stringere i grani M4 per bloccare le lastre di vetro.
29. On the door upright, only from the glass side, insert and tighten the dowel screws M4 to lock the glass slabs.

30. Stringere la vite del regolatore per accoppiare il profilo del montante a muro con il profilo del vetro. In seguito stringere i grani M10 [11].
 30. Tighten the regulator screw to couple the wall upright profile with the glass profile and after tighten the dowel screws M10 [11].

Per Aladin Wall configurazione monovetro seguire
 pagine da 2.1.119 a 2.1.120 /
 For Aladin Wall single glass configuration follow
 page from 2.1.119 to 2.1.120

Per Aladin Wall configurazione doppiovetro seguire
 pagine da 2.1.121 a 2.1.123 /
 For Aladin Wall double glass configuration follow
 page from 2.1.121 to 2.1.123

A1. Inserire le copertine dei profili [18] sui lati verticali della parete.
A1. Insert the profile covers [18] on the vertical side of the wall partition.

A2. Tagliare a misure le copertine [18] dei profili orizzontali e posizionarle (devono incastrarsi nelle clip).

A2. Cut to measure the profile covers [18] and insert them on the horizontal side of the wall partition (they must fit into the clips).

B1. Inserire le copertine dei profili [3] sui lati verticali della parete.

B1. Insert the profile covers [3] on the vertical side of the wall partition.

B2. Posizionare le copertine dei profili [3] sui profili tratta orizzontali (devono incastrarsi nelle clip).

B2. Insert the profile covers [3] on the horizontal side of the wall partition (they must fit into the clips).

B3. Pulire accuratamente il lato interno dei vetri e dei profili

B3. Carefully clean the internal side of the glass and the profiles.

B4. Completare la parete vetrata con la seconda pannellatura, partendo sempre dal muro.

B4. Complete the glass wall partition with the second glass panel, always starting from the wall.

B5. Sul montante porta inserire e stringere i grani M4 per bloccare le lastre di vetro.

B5. On the door upright insert and tighten the dowel screws M4 to lock the glass slabs.

ALADIN WALL

Installazione telaio porta battente / Swing door frame installation

Configurazione A / Configuration A

partenza con porta a muro / door start at wall

- 1. Segnare la mezzzeria del profilo sul muro per posizionare il montante della porta.**
1. Mark the center line of the profile on the wall to position the upright of the door.

- 2. Rilevare l'altezza terra-soffitto in prossimità del montante e verificare la misura del profilo. Tagliare il profilo nella parte superiore a misura.**
2. Measure the height floor to ceiling close to the upright and check the profile length. Cut to measure the profile.

3. Posizionare il profilo a muro sulla mezzzeria segnata in precedenza.

3. Position the wall profile on the center line before marked.

4. Verificare che il profilo a muro sia a piombo e in bolla. / Fissare il profilo a muro con il biadesivo.

4. Verify that the wall profile is at plumb-line and levelled. / Attach the profile to the wall with double-sided tape.

5. Tagliare a misura il profilo telescopico e inserirlo nel profilo a muro.
5. Cut the telescopic profile to length and fit them into the wall profile.

6. Dal lato muro, avvitare la staffa nella parte superiore del profilo telescopico
6. On the wall side, screw the bracket into the upper part of the telescopic profile.

7. Mettere in bolla in profilo telescopico agendo sui regolatori. / Forare il profilo a muro nei punti prestabiliti.
7. Level the telescopic profile with the regulators. / Drill the wall profile in the pre drilled holes.

8. Verificare con la dima in dotazione la luce porta ed inserire le viti indicate per bloccare il profilo telescopico.
8. Check with the supplied template the door clearance and lock the telescopic profile into position with the security screws.

9. Ogni 30 cm, inserire clip di plastica su entrambi i montanti della porta.
 9. Each 30 cm, insert the plastic clip on each door upright.

10. Dal lato parete vetrata, avvitare la staffa nella parte superiore del profilo.
 10. From the glass wall side, fix the bracket to the upper section of the profile using screw.

Aladin Wall

Installazione telaio porta battente / Swing door frame installation

11. Tagliare a misura le coperture verticali centrostanza e inserirle sui montanti.
11. Cut the cover profile to length and fit them into the uprights.

12. Dal lato senza battuta, posizionare il profilo a C a soffitto sulla mezzera tracciata in precedenza.

12. On the side without the rebate, position the ceiling C profile on the centre line drawn before.

13. Forare il soffitto. Fissare il profilo a C con viti e tasselli adeguati al tipo di soffitto.

13. Drill the ceiling. Fix the C profile with screws and plugs suitable for the ceiling.

14. Dal lato senza battuta, infilare il traverso di battuta.

14. On the side without a rebate, insert the rebate cross piece.

15. Avvitare n°3 viti per bloccare il traverso sulle staffe. (n°2 viti lato serratura, n°1 vite lato cerniere).

15. Tighten 3 screws to stop the crosspiece on the brackets. (no. 2 screws on lock side, no. 1 screw on hinges side).

Montaggio cerniere Hinge installation

16. Accertarsi che la boccola sia inserita nella cerniera.
16. Make sure the bushing is inserted into the hinge.

17. Fissare sul montante della porta la cerniera inferiore e quella superiore.
17. Fix on the door upright the lower hinge and the upper one.

18. Avvitare una vite per fissare la cerniera superiore al traverso di battuta.
18. Tighten one screw to fix the upper hinge to the stop crosspiece.

19. Forare il pavimento ed inserire vite di sicurezza nella cerniera inferiore.

19. Drill the floor and insert safety screw in the lower hinge.

20. Inserire il piatto di copertura nella sede della cerniera.

20. Insert the cover plate into the hinge seat.

21. Tagliare a misura ed inserire la guarnizione di battuta sui montanti e sul traverso.
21. Cut to measure and insert the the striker gasket on the uprights and on the crosspiece.

ATTENZIONE: Tagliare la guarnizione a filo pavimento.
ATTENTION: Cut the gasket up to the floor.

ALADIN WALL

Installazione telaio porta battente / Swing door frame installation

Configurazione B / Configuration B

partenza centro stanza / center wall door

**RIPETERE GLI STESSI PASSAGGI PER CONCLUDERE IL MONTAGGIO DELLE PARETI RIMANENTI.
REPEAT THE SAME STEPS TO COMPLETE THE ASSEMBLY OF THE REMAINING WALLS.**

1. Dal lato del montante con il riscontro avvitare la staffa nella parte superiore del profilo.
1. From the side of the upright with the striker, screw the bracket into the upper part of the profile.

2. Dal lato cerniere avvitare la staffa nella parte superiore del profilo.
2. On the hinge side, screw the bracket into the upper part of the profile.

3. Dal lato cerniere, infilare e avvitare la piastra per il traverso.
 3. On the hinge side, thread and screw the plate for the cross piece.

4. Ogni 30 cm, inserire clip di plastica su entrambi i montanti della porta.
 4. Each 30 cm, insert the plastic clip on each door upright.

Aladin Wall

Installazione telaio porta battente / Swing door frame installation

5. Tagliare a misura le coperture verticali centrostanza e inserirle sui montanti.
5. Cut the cover profile to length and fit them into the uprights.

6. Dal lato senza battuta, posizionare il profilo a C a soffitto sulla mezzera tracciata in precedenza.

6. On the side without a rebate, position the ceiling C-profile on the centre line drawn before.

7. Forare il soffitto. Fissare il profilo a C con viti e tasselli adeguati al tipo di soffitto.

7. Drill the ceiling. Fix the C profile with screws and plugs suitable for the ceiling.

8. Dal lato senza battuta, infilare il traverso di battuta.
8. On the side without the rebate, slide in the rebate cross piece.

9. Avvitare n°3 viti per bloccare il traverso sulle staffe. (n°2 viti lato serratura, n°1 vite lato cerniere).
9. Tighten 3 screws to stop the crosspiece on the brackets. (no. 2 screws on lock side, no. 1 screw on hinges side)

Montaggio cerniera Hinge installation

10. Fissare sul montante della porta la cerniera inferiore.
10. Fix on the door upright the lower hinge.

11. Forare il pavimento ed inserire vite di sicurezza nella cerniera inferiore.
11. Drill the floor and insert safety screw in the lower hinge.

12. Inserire il piatto di copertura nella sede della cerniera.
12. Insert the cover plate into the hinge seat.

13. Tagliare a misura ed inserire la guarnizione di battuta sui montanti e sul traverso.
 13. Cut to measure and insert the the striker gasket on the uprights and on the crosspiece.

ATTENZIONE: Tagliare la guarnizione a filo pavimento.
ATTENTION: Cut the gasket up to the floor.

ALADIN WALL

Montaggio pannello sopra luce / Transom panel installation

Configurazione A / Configuration A

partenza con porta a muro / door start at wall

- 1. Segnare la mezzeria del profilo sul muro per posizionare il montante della porta.**
1. Mark the center line of the profile on the wall to position the upright of the door.

- 2. Rilevare l'altezza terra-soffitto in prossimità del montante e verificare la misura del profilo. Tagliare il profilo nella parte superiore a misura.**
2. Measure the height floor to ceiling close to the upright and check the profile length. Cut to measure the profile.

- 3. Posizionare il profilo a muro sulla mezzeria segnata in precedenza.**
3. Position the wall profile on the center line before marked.

- 4. Verificare che il profilo a muro sia a piombo e in bolla. / Fissare il profilo a muro con il biadesivo.**
4. Verify that the wall profile is at plumb-line and levelled. / Attach the profile to the wall with double-sided tape.

5. Inserire il profilo telescopico nel profilo a muro.
5. Insert the telescopic profile into the wall profile.

6. Dal lato muro, avvitare la staffa nella parte superiore del profilo telescopico
6. On the wall side, screw the bracket into the upper part of the telescopic profile.

7. Mettere in bolla in profilo telescopico agendo sui regolatori. / Forare il profilo a muro nei punti prestabiliti.
7. Level the telescopic profile with the regulators. / Drill the wall profile in the pre drilled holes.

8. Verificare con la dima in dotazione la luce porta ed inserire le viti indicate per bloccare il profilo telescopico.
8. Check with the supplied template the door clearance and lock the telescopic profile into position with the security screws.

9. Ogni 30 cm, inserire clip di plastica su entrambi i montanti della porta.
9. Each 30 cm, insert the plastic clip on each door upright.

10. Dal lato parete vetrata, avvitare la staffa nella parte superiore del profilo.
10. From the glass wall side, fix the braket to the upper section of the profile using screw.

- 11. Tagliare a misura le coperture verticali centrostanza e inserirle sui montanti.**
11. Cut the cover profile to length and fit them into the uprights.

12. Dal lato senza battuta, posizionare il profilo a C a soffitto sulla mezzera tracciata in precedenza.
12. On the side without a rebate, position the ceiling C-profile on the centre line drawn before.

13. Forare il soffitto. Fissare il profilo a C con viti e tasselli adeguati al tipo di soffitto.
13. Drill the ceiling. Fix the C profile with screws and plugs suitable for the ceiling.

14. Dal lato senza battuta, infilare il traverso di battuta.
14. On the side without a rebate, insert the rebate cross piece.

15. Avvitare n°4 viti per bloccare il traverso sulle staffe. (n°2 viti per lato)
15. Tighten 4 screws to stop the crosspiece on the brackets. (2 screws each side)

16. Tagliare a misura ed inserire la guarnizione di battuta sui montanti e sul traverso. **ATTENZIONE:** Tagliare la guarnizione a filo pavimento.
16. Cut to measure and insert the the striker gasket on the uprights and on the crosspiece. **ATTENTION:** Cut the gasket up to the floor.

17. Montare il pannello sopraluce inserendo i perni nelle apposite sedi sul traverso. **ATTENZIONE:** effettuare sempre dal lato a tirare.
17. Mount the transom panel inserting the pins in the proper slots on the crosspiece. **ATTENTION:** Always operate from the pulling side.

18. Il pannello sopraluce deve essere sostenuto fino a quando non viene installata la cerniera.

18. The transom panel must be hold till the hinge is inserted.

Montaggio cerniere Hinge installation

19. Fissare sul montante della porta la cerniera superiore. / 20. Avvitare una vite per fissarla al traverso di battuta.
19. Fix on the door upright the upper hinge. / 20. Tighten a screw to fix it to the closure crosspiece.

21. Fissare sullo stipite lato riscontro la squadretta di fissaggio superiore. / 22. Avvitare una vite per fissarla al traverso di battuta.
21. Fix on the lock side profile the top fixing bracket. / 22. Tighten a screw to fix it to the closure crosspiece.

23. Inserire la guarnizione di battuta sul traverso.
23. Insert the the striker gasket on the crosspiece.

24. Fissare sul montante della porta la cerniera inferiore. / 25. Forare il pavimento ed inserire vite di sicurezza nella cerniera inferiore.
24. Fix on the door upright the lower hinge. / 25. Drill the floor and insert safety screw in the lower hinge.

26. Inserire il piatto di copertura nella sede della cerniera.
26. Insert the cover plate into the hinge seat.

27. Inserire il piatto di copertura nella sede della squadretta fissaggio superiore.
27. Insert the cover plate into the seat of the top fixing bracket.

ALADIN WALL

Montaggio pannello sopra luce / Transom panel installation

Configurazione B / Configuration B

partenza centro stanza / center wall door

**RIPETERE GLI STESSI PASSAGGI PER CONCLUDERE IL MONTAGGIO DELLE PARETI RIMANENTI.
REPEAT THE SAME STEPS TO COMPLETE THE ASSEMBLY OF THE REMAINING WALLS.**

- 1. Dal lato del montante con il riscontro avvitare la staffa nella parte superiore del profilo.**
1. From the side of the upright with the striker, screw the bracket into the upper part of the profile.

- 2. Dal lato cerniere avvitare la staffa nella parte superiore del profilo.**
2. On the hinge side, screw the bracket into the upper part of the profile.

3. Dal lato cerniere, infilare e avvitare la piastra per il traverso.
3. On the hinge side, thread and screw the plate for the cross piece.

4. Ogni 30 cm, inserire clip di plastica su entrambi i montanti della porta.
4. Each 30 cm, insert the plastic clip on each door upright.

5. Tagliare a misura le coperture verticali centrostanza e inserirle sui montanti.
5. Cut the cover profile to length and fit them into the uprights.

6. Dal lato senza battuta, posizionare il profilo a C a soffitto sulla mezzera tracciata in precedenza.
6. On the side without a rebate, position the ceiling C-profile on the centre line drawn before.

7. Forare il soffitto. Fissare il profilo a C con viti e tasselli adeguati al tipo di soffitto.
7. Drill the ceiling. Fix the C profile with screws and plugs suitable for the ceiling.

8. Dal lato senza battuta, infilare il traverso di battuta.

ALADIN WALL

Montaggio anta battente / Swing door installation

1. Inserire le boccole inferiori e superiori nella propria sede sulle cerniere inferiori e superiori.

1. Align lower and upper bushings into their groove on lower and upper hinges.

2. Verificare sull'anta che il perno eccentrico superiore sia posizionato all'interno della cerniera stessa.

2. Ensure that the upper eccentric pin is correctly located inside the hinge.

3. Inclinare l'anta e infilare il perno inferiore nella squadretta inferiore.
 3. Tilt the door forward and fit the lower pivot into the lower square.

4. Raddrizzare l'anta, mettere in corrispondenza la squadretta superiore con il perno eccentrico superiore ed avvitare.
 4. Position the door upright. Align the upper fitting with the upper eccentric pin and screw together.

5. Regolare la luce della porta agendo sui perni eccentrici con una chiave a brugola.
 5. Adjust the door acting on its eccentric pins with an Allen Key to obtain a smooth clean opening.

6. Dopo la regolazione stringere i grani di blocco.
 6. After the adjustments tighten the block dowel screws.

7. Inserire la vite di sicurezza nella cerniera superiore.
7. Insert the top fastening screw in the upper hinge.

PER LE ALTRE VERSIONI RIPETERE GLI STESSI PASSAGGI.
FOR OTHER VERSIONS REPEAT THE SAME STEPS.

ALADIN WALL

Installazione maniglia - riscontro serratura / Handle - strike box assembly

1. Inserire la maniglia. Vedere scheda di montaggio dedicata.

1. Insert the handle. Look at the proper dedicated assembling sheet.

2a. Inserire il riscontro serratura latch nella sede sul montante. È possibile una regolazione ruotando il blocco serratura di 180°.

2a. Insert the lock catch into the seat on the vertical frame. An adjustment is possible by turning the block lock by 180°.

2b. Inserire nella sede la contropiastra per serratura B-one. È possibile una regolazione tramite i fori asolati della piastra magnetica.
 2b. Insert the backplate for B-one lock on the frame. It is possible to regulate it by means of the slotted holes of the magnetic plate.
