ALADIN WALL MONO

Aladin Wall Mono è una parete divisoria, terra-soffitto, con un vetro stratificato mm. 5+5 (o mm. 4+6) applicato su un lato dei profili d'alluminio, fissati a pavimento, soffitto e parete, in modo da presentare una faccia con superficie planare e l'altra con superficie arretrata rispetto ai profili stessi.

La struttura d'alluminio, disponibile in cinque diverse finiture, prevede un sistema di regolazioni per mettere la parete in bolla e compensare le irregolarità degli ambienti. Nella parete sono integrabili tutti i modelli di porte a battente e scorrevoli Glas Italia, coordinate nelle stesse finiture o con finiture diverse. (Attenzione: non tutte le tipologie di vetro utilizzabili nella parete sono disponibili in ogni modello di porta). Il vetro, disponibile in una vastissima gamma di finiture, è certificato secondo le normative di sicurezza ANSI Z97.1 e UNI EN12150.

Sono disponibili anche pannelli in gres o in legno in diverse finiture ed essenze.

REGOLAZIONE DELLA PARETE:

- Soffitto 8 mm.
- Pavimento 12 mm.

Aladin Wall Mono is a wall partition, floor-ceiling, with laminated glass 5+5 mm. thick (or 4+6 mm. thick) applied on one side of the aluminum profiles, fixed to floor, ceiling and/or wall, so that one side has a flush surface and the other is rebated from the profiles themselves.

The aluminum structure, available in 5 different finishes, is supplied with an adjustment system to level the wall partition and to compensate irregularities in the floor or ceiling.

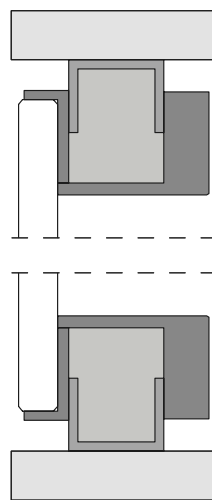

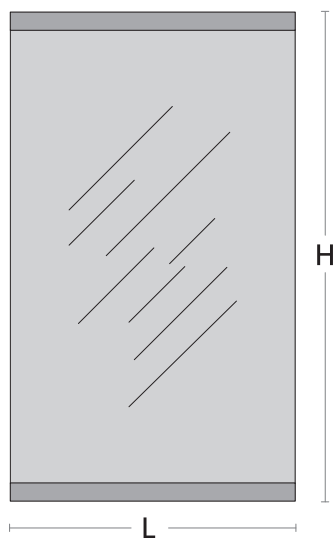

The wall partition can be integrated with all the Glas Italia models of swing and sliding doors, and in the same or different finishes. (Note: not all glass finishes usable for the wall partition is available with every door model).

The glass, available in a wide range of finishes, is certified in compliance with the safety regulation ANSI Z97.1 and UNI EN12150.

The panels are also available in stoneware or wood in many different finishes.

WALL ADJUSTMENT:

- CEILING 8 mm.
- FLOOR 12 mm.

ALADIN WALL DUO

Aladin Wall Duo è una parete divisoria, terra-soffitto, con doppio vetro stratificato mm. 5+5 (o mm. 4+6) applicato su entrambi i lati dei profili d'alluminio fissati a pavimento, soffitto e parete, in modo da formare una camera d'aria interna e avere superfici perfettamente planari sulle due facce della parete.

La struttura d'alluminio, disponibile in cinque diverse finiture, prevede un sistema di regolazioni per mettere la parete in bolla e compensare le irregolarità degli ambienti. Nella parete sono integrabili tutti i modelli di porte a battente e scorrevoli Glas Italia, coordinate nelle stesse finiture o con finiture diverse (attenzione, non tutte le tipologie di vetro utilizzabili nella parete sono disponibili in ogni modello di porta). Il vetro, disponibile in una vastissima gamma di finiture, è certificato secondo le normative di sicurezza ANSI Z97.1 e UNI EN12150.

Sono disponibili anche pannelli in gres o in legno in diverse finiture ed essenze.

REGOLAZIONE DELLA PARETE:

- Soffitto 8 mm.
- Pavimento 12 mm.

Aladin Wall Duo is a wall partition, floor-ceiling, with double laminated glass 5+5 mm. (or 4+6 mm.) applied on both sides of the aluminum profiles, fixed to floor, ceiling and wall, so as to form an internal air chamber and have surfaces perfectly flush on both sides of the wall.

The aluminum structure, available in 5 different finishes, is supplied with an adjustment system to level the wall and to compensate irregularities in the floor or ceiling.

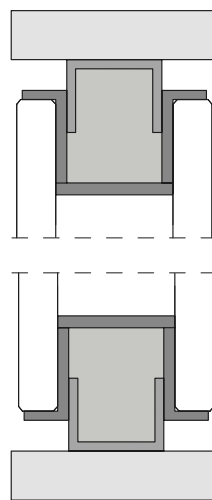

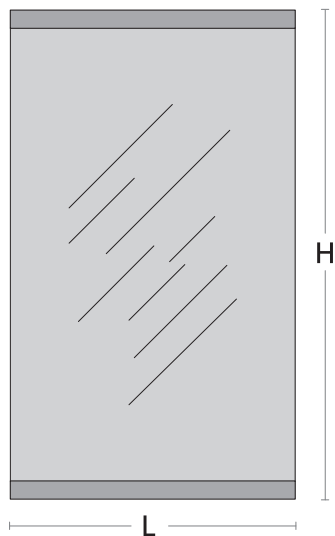

The wall partition can be integrated with all the Glas Italia models of swing and sliding doors, and in the same or different finishes. (Note: not all glass finishes usable for the wall partition is available with every door model).

The glass, available in a wide range of finishes, is certified in compliance with the safety regulation ANSI Z97.1 and UNI EN12150.

The panels are also available in stoneware or wood in many different finishes.

WALL ADJUSTMENT:

- CEILING 8 mm.
- FLOOR 12 mm.
